**Ideas of the students are the very first step for their bright future. So we will be helping them get the idea they want to make possible under the umbrella of the community. And we will be supporting them with the sandbags on the ground so that they can fly all high without any fear. We know that the burning fire would require an initial ignition so to encourage though youth who might still be teen not even that can learn to think their way.**

**As the founder of The SITC, I am delighted to claim to be providing the best platform to welcome the youth, the students who hold the key for the brighter nation and the prosper humanity. We are providing the platform for boosting the passion and potential and to create the positive change in the mind of a student should be our priority for brighter future for the humanity. The SITC want to bridge the gap between potential of students and their realization which will lead your ideas and knowledge for the flight. We are a committee, a hub for participation, competition, innovation, and a driving force for potential holder.**

SITC, Sparsh Bajoria**

# KNOW US!

The SITC is a group of passionate students and young people dedicated to encourage the passion and talent of any student who want to develop their passion in the field of interest in any extra curricular activities. We believe in the power of youth to create positive change and are committed to providing opportunities, resources, guidance, support and the well structured platform for any student to take off enlarging their wing through the wind.

# WHAT WE DO?

School does open the door, but student must not only enter it themselves but also strive to rise above standards amongst their peer.

We focus on the individual enhancement of any student not academically which is mainly focused in schools but also their social, practical and emotional thinking which will be empowered while facing the activities amongst the new faces.

# GOALS AND OBJECTIVES

## Objective n° 1

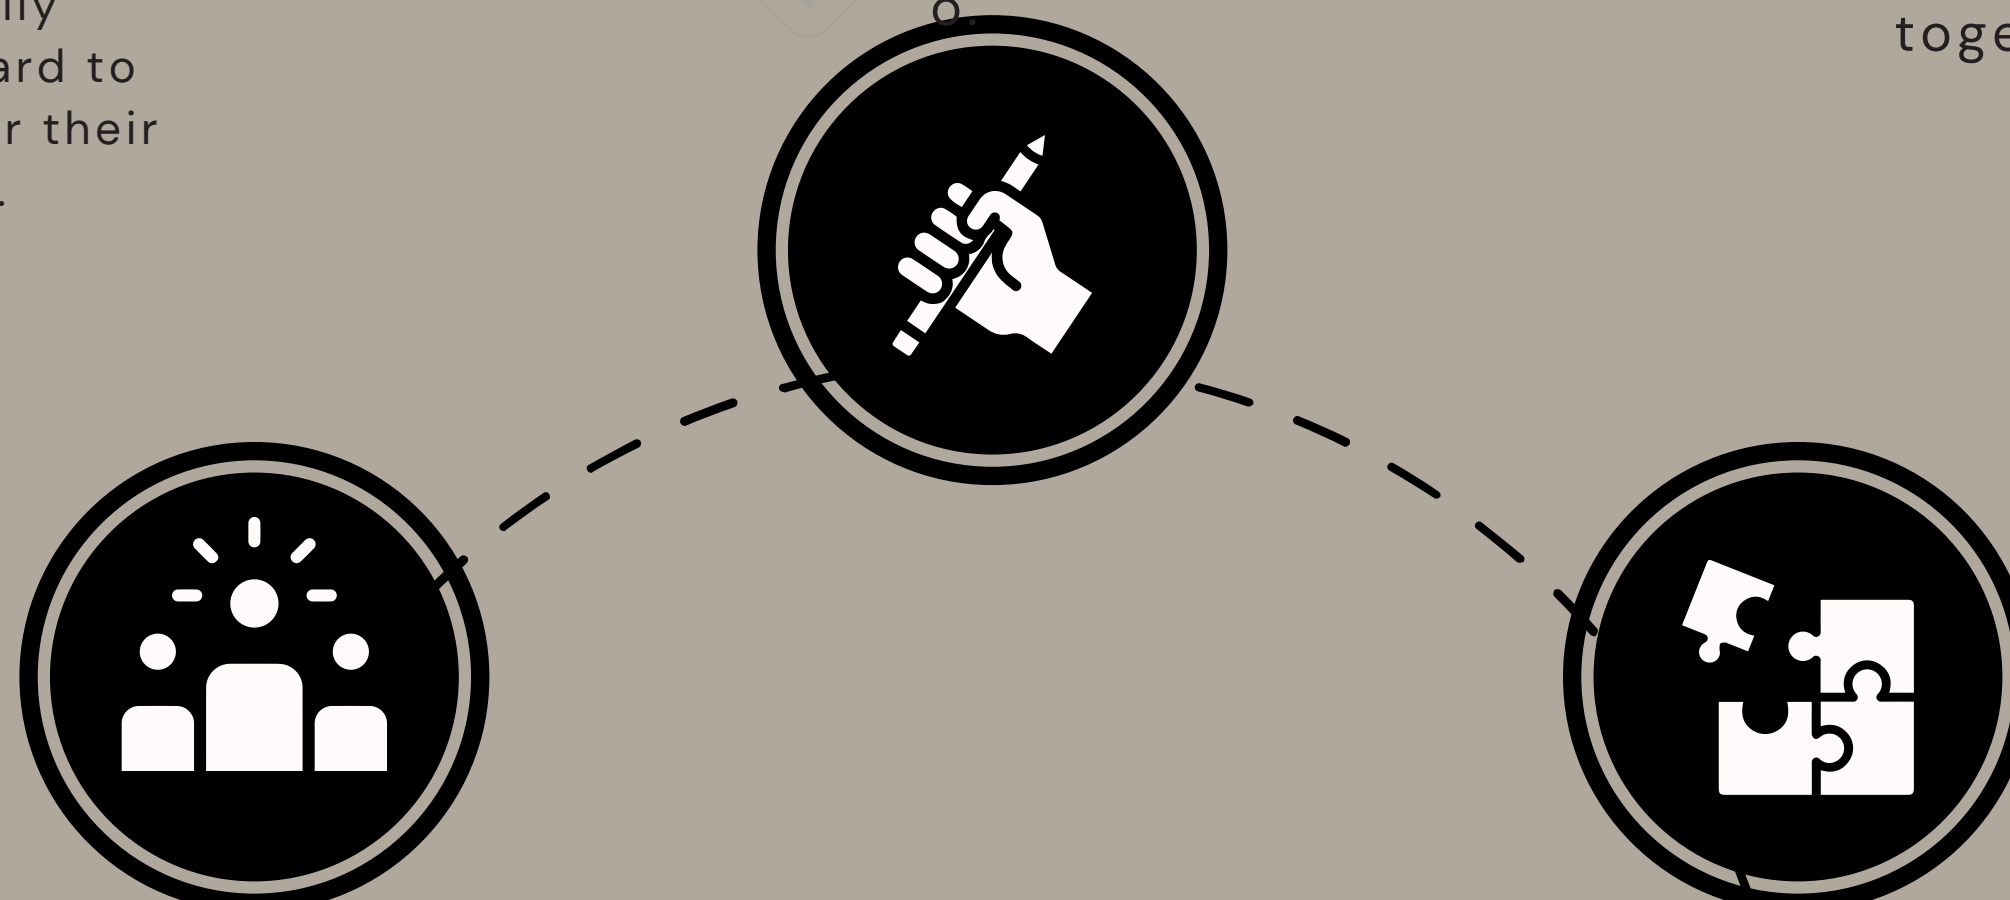

.Bridging the Gap to Resources and Opportunities: Many of the student's face a lot of issues to strive their talent in an interested field when they reach for higher studies so we are initially providing a supporting guard to light them the right path for their interest, and passion.

## Objective n° 2

Fostering Skill Development and Leadership Potential: Skill development is nothing much to be considered but the rising of anyone's interest and potential in the field.

## Objective n° 3

Cultivating a Supportive Community: Sticks do gets stronger when are together like the story we will rise with our passion together in a community.
